

## Kwik Quote update tips for Windows 7 users

If you have windows 7 and have installed Kwik Quote in the directory c:\Program Files (x86)\MIFABUS proceed with your update as follows:

1. Run the download.
2. [Run Win Zip]
3. Extract
4. Tick "all files/folders in archive" and "overwrite existing files"
5. UN-tick "use folder names"
6. [Extract]

If you get the message "permission denied" or similar, you will have to find the directory c:\Program Files (x86)\MIFABUS and

1. Right click "properties"
2. Click the security tab
3. Highlight the correct group or user name
4. [edit]
5. Click allow under full control
6. [Apply]

Try the unzip again.
