T1400 - Per Foot Price Calculation:

Prices effective May 1, 2008

Full size bodies:

Divide the above noted List Price (\$195.00) by length of the body (39.37") = \$4.9530 List per inch.
 \$4.9530 x 12" = \$59.44 List per foot.

Full size grates:

Divide the above noted List Price (\$23.36 for the T1400-PG-4 for example) by length of the grate (20") = \$1.168 List per inch. \$1.168 x 12" = \$14.02 List per foot.

Therefore, a typical trench drain system is \$73.46 List Price per foot (\$59.44 + \$14.02). This List Price includes the body, support board, grate lockdown hardware and support legs.

Grates for angle bodies

(One grate per 45 degree angle body. Two required for 90 deg. turns)
