**Specification:** MIFAB® Series BIG--___-R HDPE rotational molded rice interceptor with liquid holding capacity of ____ (indicate) gallons. Unit shall include: dual strainer baffles with ¼" perforations, deep seal trap covered by lid, adjustable lid system, sample port access and 4" no hub inlet and outlet connections. Steel encased composite lid provides a water / gas tight seal and has a minimum of 20,000 lbs. load capacity. The lid is designed in accordance with the loading requirements of AASHTO H20. For indoor/outdoor use.

**Function:** Used in food processing plants and restaurant facilities that have a lot of rice to receive waste water. The rice interceptor will filter out rice from the fixture waste line before entering the pipe system to reduce clogging and improve performance. Typically installed either on or into the floor. Narrow width permits access through doorways and down stairwells. High Density Polyethylene construction ensures a lightweight installation process (two people can move and install it). Regular maintenance is required to keep the interceptor functioning. All Big Max interceptors can withstand a temperature of up to and including 180 degrees Fahrenheit.

**Suffix**

- **-AK** Anchor kit (set of four) - for BIG-140-R
- **-AK** Anchor kit (set of four) - for BIG-300-R
- **-C** Lid extension (specify “C” dimension req.) - for BIG-140-R (This is up to a 44” high extension system)
- **-C** Lid extension (specify “C” dimension req.) - for BIG-300-R (This is up to a 44” high extension system)
- **-C+** Lid extension from 44” to 72” (specify “C” dimension req.) For BIG-140-R, Per inch price.
- **-C+** Lid extension from 44” to 72” (specify “C” dimension req.) For BIG-300-R, Per inch price.
- **-DI** Ductile Iron lid and collar - for BIG-140-R
- **-DI** Ductile Iron lid and collar - for BIG-300-R
- **-F6** 6” no hub inlet + outlet (for each piece 2 pcs req, per int.)
- **-FL-C** Membrane clamp kit
- **-LHSI** 4” no hub inlet on left hand side
- **-LHSO** 4” no hub outlet on left hand side
- **-RHSI** 4” no hub inlet on right hand side
- **-RHSO** 4” no hub outlet on right hand side
- **-RPO** 4” Remote pump outlet connections on top of interceptor - specify location and number required
- **-SP** External Sampling port - inline, high connections
- **-SP-L** External Sampling port - inline, low connections
- **-SP-OF** External Sampling port - offset
- **-T** Female threaded connections (for each piece 2 pcs req, per int.)
