

Shallow Depth Trench Drain System

MIFAB's Shallow Depth Trench Drain system is the drainage solution for removal of standing water.

Our new Slim Trench® Contractor Kit is the perfect answer for dealing with residential drainage issues by pools, garages, gardens, driveways, sidewalks, patios, and kitchen areas.

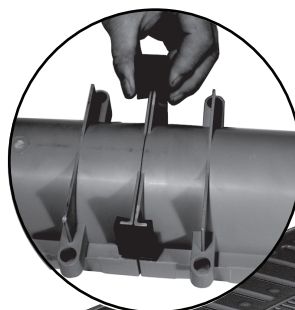

Part # T300-KIT

All Contractor Kit accessories are located at bottom of suitcase style carry case. Each Contractor Kit comes with enough parts for several configurations.

Recommended for medium-duty pneumatic tire traffic, autos and light trucks at speeds less than 20 mph.
